\1\ Before you go

1. Passport and Visa

If you're a student from outside the EU, you'll need the D National Visa to study in Italy. This visa is made specifically for students. Get in touch as soon as possible with your local Italian Consulate. After reading all the instructions on their website, you can schedule an appointment and discuss the procedure with them. Be sure to allow extra time for your visa application. For more info check the official website of the Italian Ministry of Foreign affairs:

<http://vistoperitalia.esteri.it/home/en>.

2. Health Insurance

To benefit from health services, non-EU students should get an insurance cover against the risk of illness, injury and maternity either by:

- Underwriting an insurance policy with an Italian or foreign insurance company, valid in Italy
- By voluntary registering in the National Health Service: Service extends to family members (Art. 34, para. 3, Decree 07/25/98)

To register for the National Health Service there is a fee, as co-payment: an annual contribution on total income earned in the previous year in Italy and / or abroad. The contribution for voluntary registration is valid for a calendar year (from January 1 to December 31) and it cannot be split and has no retroactive effect.

For more info refer to the following document: http://www.salute.gov.it/imgs/C_17_opuscoliPoster_118_ulterioriallegati_ulterioreallegato_4_alleg.pdf.

3. Money

The currency in Italy is Euro €. In the following link, you can find information about the costs of living in Naples (it's an average, it can change according to your lifestyle): <https://www.numbeo.com/cost-of-living/in/Naples>.

A. Credit/Debit Cards

If your credit/debit card PIN is more than 6-digits long, please reduce it preferably to 4 digits or to a maximum of 6. Anything over that, will fail on a European ATM or PinPad and you will be out of money.

B. Popular banks in Italy

If you want to open a bank account in Italy, you need have in hands your passport and Codice Fiscale, or Fiscal Code. If you need to get a Fiscal Code, go to the Agenzia Delle Entrate (Revenue Agency), Direzione Provinciale di Napoli with your passport.

4. Mobile Phone Companies

If you have a European SIM card you can use it with the price plan of your country ("Roam like at home"). This means that there are no roaming charges. However, it's not meant to be used for permanent roaming. Mobile phone companies apply a rule called "fair use policy", which changes basing on the contract that you have.

If you are considering instead to get an Italian SIM card, there are 4 Main Network Operators (MNO): Vodafone, TIM, 3 (H3G) and Wind. There are also some MVNO (Mobile Virtual Network Operators) available like Ho, Kena Mobile and Iliad. The difference between MNOs and MVNOs is that while MNOs use their repeaters, MVNOs do not have their connection infrastructure and use instead the one of the MNOs.

You can easily find these stores at the airports and train stations.

You can buy the annual student train pass (Unico Campania: <http://unicocampania.it/>) at cost of 181.40€ (in which are included 5.00€ for the card). The pass will start from the 1st of the following month. The service is also available online but you'll have to give them the address where to ship it. This pass will let you use every Metro route (both Linea 1 and 2) and (not sure) some buses and trains.

The Unico offices are in Piazza Matteotti, near the central Postal Office, at the second floor (check the image below).

B. Renting a Car/Scooter:

Some websites you can use:
<https://www.avis.com/en/home>
<https://www.europcar.it>
<https://www.rentalcars.com>
<http://hertz.com>

C. Taxi

Here there are a few tips to recognise official taxis in Naples:

- Cars are white
- They have a taxi sign on the roof
- On the front doors there is the logo of Naples and its licence
- Inside there is a taximeter

Or you can call this number to get a taxi:
Radio Taxi: +39 081 570 7070

4. How to Get to the Apple Academy

Apple Developer Academy

Corso Nicolangelo Protopisani, 50
Universita Federico II, Campus San Giovanni a Teduccio, III Piano
80146, Napoli
<https://goo.gl/maps/esumuZqmkaC2>

COINOR (Administrative Office)

Corso Umberto I, 40
80138, Napoli
<https://goo.gl/maps/urGDJrpo5DQ2>
(second floor at the right side of the building)

Going by train:

The easiest way to get to the Apple Developer Academy is to get the Metropolitan Train (Linea 2) and get off at "Napoli San Giovanni Barra".

If you're leaving from the city centre, take any train to Salerno or Napoli SGB. Don't take the train to Caserta as this shares the same stops as the other metropolitan trains until Gianturco, but then takes a different route and does not stop in Napoli SGB.

When you get out of the train in San Giovanni-Barra station, there will be a few signs indicating "Università degli studi di Napoli Federico II". Follow them to find the Academy. There are two ways to get out of the station: one on the right (which is longer) and then other one the left. At the moment of the creation of this document, Satellite images on Google Maps are not updated yet while Google Earth flat images are.

Going by bus:

If you're taking the bus from the city centre side to San Giovanni, you can take the line 154. Check the full itinerary of this line to see the best bus stop for you (you can find this information in the app Gira Napoli, recommended in the section 3.8 of this document).

5. Where to Eat Nearby the Academy

There are several places around where you can easily find food, follow some of them:

Voglia di pane (Lucia)

<https://goo.gl/maps/71dTymps2A12>

University Bar (Nunzia)

<https://goo.gl/maps/e2SsRwPtVgx>

Frosina

<https://goo.gl/maps/9eEBJkSMX4u>

Simply Supermarket

<https://goo.gl/maps/4z9mowg967u>

They also make sandwiches here, you just have to order a *panino*

\3\ While You Are There

1. Personal Safety

- Stay away from small betting tables in the middle of the streets. Usually there are 2 or more people who play with 3 cards, or small balls. They are professional tricksters, and their favourite victims are tourists.
- If someone around Piazza Garibaldi tries to sell you a computer, a tablet or smartphone for about 50€, stay away from them! If you pay them they will give you a brick in the original box. Yes, literally a brick! They can swap objects very well and incredibly quickly.
- There are few districts where you could bump into robbers. Avoid showing your gadgets like your phone or your watch - normally they choose their victims basing on their clothing and jewellery. Also, try to don't look disoriented.
- Be careful about pickpockets, especially on the buses (<https://youtu.be/la2b54srRZM>); avoid keeping your phone in your back pockets while walking on the streets.
- Don't be attracted by people at the rail station or at the airport who ask if you need a Taxi. They usually come next to you saying "Taxi?". They are unlicensed and more expensive. If you need a taxi, get on an official one outside the airport or the rail station
- Using the bicycle could be unsafe because of the bad drivers. In Fuorigrotta, there is a bicycle path that goes to Mergellina's seafront. Be sure to wear an anti-smog mask and first of all an helmet.
- We strongly suggest to not swim near the port. Officially it's bathing water, but there are astonishing beaches in the Posillipo area or in Nisida (look for Gaiola or Marechiaro, they are amazing). Then there are other wonderful beaches that you can reach by train in less than 1 hour (Sorrento, Meta...) or the islands (Ischia, Capri, Procida) by ferries or speedboats.
- Pay EXTRA attention when you cross the streets, look both ways. Drivers have their own (bad) rules.

4. Things to See and Do

A. Places to go

- Public museums are free every first Sunday of the month.
- "Via San Sebastiano" is a street with little musical shops. You must visit it if you are interested in music.
- At "Port'Alba" there are a lot of stalls with books at 1€ or 2€. It could be useful if you want to learn Italian.
- Neapolitan language is a bit similar to Spanish, if people don't understand English, you should try speak Spanish.
- A lot "Linea 1" 's metro stations are designed to be an artwork; TOLEDO Station is considered the most beautiful metro station in the world!
- At Garibaldi station there is a public piano. You can play it if you want.
- From the top of Vesuvio you can see all the city of Naples, but the most fascinated things are the fumaroles: you'll see the rocks smoke out.
- Naples Castels are very nice to see, check out Castel dell'Ovo on the seaside promenade, and Castle Sant Elmo up on the Vomero Hill where you can enjoy a full 360 degree view of the city

- Underground Naples is something you cannot miss, there are different places in the city historical centre where you can go visit the city under your feet. Check for Tunnel Borbonico, Napoli Sotterranea, Catacombe di San Gennaro

B. Food & Drink

- Best pizzerias: Antica Pizzeria da Michele, Trianon, Gino Sorbillo, Starita, Concettina ai tre santi.
- Best pizzeria for fried pizza: La Masardona
- Best pastry shops: Scaturchio, Attanasio, Poppella (ask for the "nuvola"), Gay-Odin (especially for chocolate).
- Best coffees: Caffè Gambrinus, Bar Mexico, Caffè del Professore, Cafè do Brasil.
- Best gelatterias: Menella (specially at Via Toledo), Ciro (at Mergellina), Casa Infante
- Try local desserts: sfogliatella riccia, sfogliatella frolla, babbà
- "Bufalina" is a kind of pizza with another kind of mozzarella (usually real buffalo mozzarella).
- If you order a coffee in a bar, they'll give you an Espresso
- Pay attention: in Naples the coffee is traditionally served "with triple C's" ("comm cazz coce" in Neapolitan) which means "How fucking burns!", because the coffee is served rigorously in a boiling cup, so... don't scald your mouth!
- Before going to Chinese, Japanese, Mexican, etc. restaurants, remember: you are in Italy! Enjoy the typical local food, it's delicious and diversified.
- Italian cuisine is based on the quality of the ingredients. Don't be shy ordering a simple pasta with tomato sauce or other simple dishes.
